Research abstract will be accepted starting from Monday, 11th March, 2019 through Thursday, 28th March 2019, 11:59 p.m. Only electronic files will be accepted. Please read the following guidelines about the poster presentation sessions.

Research posters criteria and requirements:

- Any health research title will be welcome and it is preferable to be relevant to the week theme.
- Be well written, clear, and organized.
- Provide a good visual description of the project.
- Demonstrate innovative thinking.
- The proposal should be entirely submitted in English.
- All participants in the research proposal should be listed.
- The “Scientific Integrity Rules” should be considered.
- The “Bioethics Regulations” must be respected when handling living creatures or parts thereof or their genetic materials.
- The proposal must be original and innovative.
- The project should yield an expected return on KSA Vision 2030.
- The comprehensive KSA and MOH policies and regulations should be complied with.

Scope:

Any health research title will be welcome.

Especially that one related to Health research integrity based evidence studies.

Target Participant groups:

- Researchers.
- Health care Providers.
- A students on health field.
- Stakeholders.
- Scientists.

Communication:

You are welcome to communicate us via

2ndscientificweek@moh.gov.com

, or you can call Miss "Sara ALkhatlan" number: 011212-5555 , Extension 4436 .

Cost:

NO fees will be paid for attending the event workshops, poster presentations or health research consultations.

Location:

Main hall, MoH First Tower, Almorabba, Riyadh, Saudi Arabia.

Oral Poster Presentation:

There is a chance for any health care provider, researcher and student to present their work as posters after the scientific committee's acceptance (A0 or A1 format) via delivery of a short oral 5 minutes presentation.

Abstracts should be:

Based upon new program initiatives, empirical research, or conceptual theses or analyses. Poster format includes five sections that make up the body of the abstract. Abstracts *must* include information in each section.

1. Title

2. Scientific Abstracts (550 words or less): Scientific abstracts that describe empirical studies related to the conduct or oversight of human subjects joining research, and include data collection, conclusions drawn from the data analysis, and directions for future studies.

3. Scientific submissions *must* include the following five sections:

- *Background*: A statement on the background conditions that spurred your research and the research questions.
- *Methods*: A description of the research, analytic methods used, sample size (and justification), etc.
- *Results*: Results of the research (data), including any baseline measures and outcomes.
- *Limitations*: Limitations of the study.
- *Discussion*: Conclusions drawn from the data or the analysis provided, and directions for the future.

- The abstract should adhere to the word limits.

- The accepted scientific posters will be downloaded on the 2nd scientific research week 2019 website, and may be used for other promotional purposes.

Awards:

Every participant of the event as poster presenter will receive an acknowledgement certificate, and there will be an honored for the best three scientific presentations.

We hope to see you at our event.
